COLISEUM CANCER CENTER

affiliated with Coliseum Medical Centers

In our increasingly complicated lives, we all look for ways to simplify. The Breast Health Center located at the Coliseum Medical Centers is an invaluable way to save time, improve your health and increase your peace of mind.

The Coliseum Breast Health Center offers a full array of breast health services to you and your personal physician through one centralized service.

Whether you need answers to breast health questions or your physician would like the consultation services of a multidisciplinary physician panel to review cases and discuss treatment options – we can help you meet your health needs.

SENSITIVE
ENVIRONMENT

MAMMOGRAPHY

The Coliseum Cancer Program is accredited by the American College of Surgeon's Commission on Cancer (ACoS CoC).

Call the Coliseum Cancer Center hotline, designed to help patients and caregivers, at 1-877-274-3910 for information, referrals, and support.

A Sensitive Environment

To make you feel more comfortable, our Breast Health Center Director is a Nationally certified oncology nurse as well as a certified oncology nurse navigator, and our registered mammography technologists are female. Educational services and support before, during, and after treatment are also provided in a sensitive, understanding atmosphere.

Mammography- Simple and Life-saving

Breast health has become an increasingly important aspect of women's lives. Through mammography, many women have benefited from early detection of breast cancer. Breast cancer responds well to early treatment. Generally, the sooner it is detected, the more successful the treatment. Mammography can detect a breast lump as small as 1/8 inch. Consult your personal physician to determine when to make a mammography part of your healthcare plan.

A Variety of Treatment Options

If requested by your physician, a panel of Board Certified physicians will review your case and discuss treatment options, including a conservative approach when appropriate. You and your personal physician will then decide how to proceed in your individual case.

Multidisciplinary Panel of Physicians

Our physician panel, available to review your case and recommend treatment options, consists of Board Certified physicians in:

- Gynecology
- Medical Oncology
- Pathology
- Plastic and Reconstructive Surgery
- Primary Care Specialists
- Radiology
- Radiation Oncology
- Surgery

When You Need Reassurance

A very important service of the Coliseum Breast Health Center is to provide educational and emotional support to you before, during and after treatment. You will find compassionate and knowledgeable professionals to help you with your questions and concerns.

Information for You

Our center provides information on breast self-examination procedures, mammography scheduling guidelines and other breast health topics. Through personal consultation, videos, computer-aided instruction and a lending library, you can access the latest information on breast health, treatment procedures and care options.

Information for Your Group

If your group or organization would like a speaker for a program on breast health, please call the Coliseum Breast Health Center Coordinator at (478) 765-4805 or (800) 422-6044 to discuss your needs and schedule a time.

Just One Call

Our Breast Health Center is designed to bring together a close range of services for your health and your convenience. All you need to do is call (478) 765-4805 or (800) 422-6044 to put yourself in touch with sensitive, knowledgeable professionals.
